Our Business

Sistac is a leading player in offshore Oil & Gas inspection, repair and maintenance services in Brazil, seeking the integrity and the extension of the useful life of our clients' assets, with safety, quality, sustainability, ethics and high commitment of our employees, operations and business.

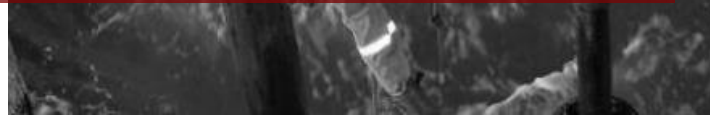

Air and Saturation Diving

Best techniques, safety and high performance in underwater survey, repair, maintenance and decommissioning services.

Rope Access

The safest, fastest and most efficient method to perform work in height: risers and tank repairs, structural maintenance and inspection.

ROV

This is an alternative to diving for in-depth visual inspections and electrochemical potential. An economic, agile and versatile option for underwater service.

SDSV

More safety in operations with divers and ROV, increasing the performance of services, making the projects more efficient and lowering the costs.

Pull-in and Pull-out

Surface maneuvers with riggers, using specially winches and tools, and diving activities to support operations of pull-in and pull-out.

Winches Maintenance

Maintenance and preventive measures to minimize the process of corrosion and degradation on the pull-in/out system.

Hull cleaning, inspection, repair, maintenance and UWILD survey

12 **Air Diving**
Inspection, repair and maintenance

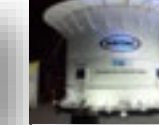

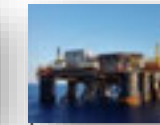

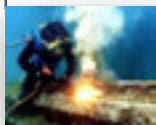

Timeline

Our history and achievements are result of dedication and willingness to exceed our customers' expectations.

1995

SISTAC's foundation and beginning of rope access activities

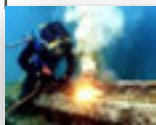

1997/1998

ACFM introduction in Brazil and beginning of the diving activities

2005

Execution (1st time in Brazil) of underwater repair on Petrobras platforms with no production interruption

2007/2008

Sistac entrance to the Work Class ROV Market | Integration of ROV with diving team to perform inspection work (1st time in Brazil)

2009

Beginning of construction of the SDSV Sistac Esperança and Sistac Vida in the Shipyard

2010

Beginning of the shallow water diving contract using the SDSV Sistac Esperança construction (25 m)

2012

Beginning of the multi-year Pull-in and Pull-out contract

2013

Started construction of the 42 m SDSV Sistac Vitória after award of a 3 + 3 year service contract w/ Petrobras

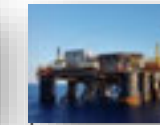

2015/2016

Sistac Vitória initiates operation. Axxon Group invests in the Company and strengthens management for a new growth cycle

2017/2018

Renewal of Petrobras contracts | Multiple services to IOCs | Execution of decommissioning services | Pull-in/pull-out restarts | 2 new SDSVs start operations (mothership) | DSV operations | Tank asset integrity

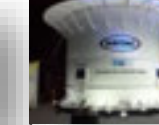

2019

Award of IMCA membership certificate | 2 new SDSVs start operations | Mob of 22 diving and 11 rope access systems

2021/2022

Diving Training Center opening in Macaé. SDSV DP2 Sistac Vitória operating for the 1st time in the IOC market.

Certifications

In a process of continuous improvement, Sistac is certified by ISO 9001, ISO 14001 and ISO 45001; also is certified by the classifiers ABS, BV, DNV e Lloyd's .

We are the first diving contractor in South America to be awarded as a member of IMCA (International Marine Contractors Association) with participation in the Diving Division – Shallow Diving.
